List of Current Papers

published by

THE AERONAUTICAL RESEARCH COUNCIL
(Numbers 151-200)

C.P. No.	Council No.	Title	Author(s)
151	15,864	Note on the effect of thickness and aspect ratio on the damping of pitching oscillations of rectangular wings moving at supersonic speeds. May, 1953.	Acum, W. E. A.
152	14,672	Stationary rig experiments on the heat extracting power of closed thermosyphon cooling holes. November, 1951.	Hahnemann, H. W.
153	15,827	The effect of rolling on fin-and-rudder loads in yawing manoeuvres. January, 1953.	Puttock, D. R.
154	15,361	The rapid, accurate prediction of pressure on non-lifting ogival heads of arbitrary shape at supersonic speeds. June, 1952.	Bolton-Shaw, B. W. Zienkiewicz, H. K.
155	15,156	Factors influencing the optimum aerodynamic design of cooled turbines. July, 1952.	Rogers, G. F. C.
156	15,687	Analysis of flight measurements on the airborne path during take-off. October, 1952.	Buckingham, W. R. Lean, D.
157	15,966	Tabulation of the Blasius function with blowing and suction. June, 1953.	Emmons, H. W. Leigh, D. C.
158	15,889	The thermodynamics of frictional resisted adiabatic flow of gases through ducts of constant and varying cross section. September, 1952.	Thomson, W. R.
159	15,625	An investigation into the rolling power and aileron reversal characteristics of swept wings. October, 1952.	Coles, A. V. Margetts, R. J.
160	15,319	The measurement of position error at high speeds and altitude by means of a trailing static head. June, 1952.	Smith, K. W.
161	15,916	The influence of surface waves on the stability of a laminar boundary layer with uniform suction. March, 1953.	Spence, D. A. Randall, D. G.

C.P. No.	Council No.	Title	Author(s)
162	16,554	Calibration of the R.A.E. No. 18 (9 in. x 9 in.) supersonic wind tunnel. Part I. Preliminary investigations. September, 1953.	Lord, W. T. Beastall, D.
163	16,555	Calibration of the R.A.E. No. 18 (9 in. x 9 in.) supersonic wind tunnel. Part II. Tests at atmosphere stagnation pressure. September, 1953.	Lord, W. T. Hunt, G. K. Pallant, R. J. Turner, J.
164	16,523	Criteria for condensation free flow in the R.A.E. No. 18 (9 in. x 9 in.) supersonic tunnel. June, 1953.	Raney, D. J. Beastall, D.
165	15,548	A theoretical note on effusion cooled gas turbine blades. October, 1952.	Staniforth, R.
166	15,941	The manufacture of aerofoil models by tangent plane milling. June, 1953.	Marriner, R. S.
167	16,023	Schlieren methods for observing high-speed flows.	Holder, D. W. North, R. J.
168	16,067	Note on an application of the tilting plate method of Mach number variation for wind tunnel tests at low supersonic speeds. March, 1953.	Seddon, J. Haverty, L.
169	16,777	A variable inductance acceleration transducer. August, 1953.	Neubert, H. K. P.
170	15,349	Aerodynamic derivatives for a delta wing oscillating in elastic modes. July, 1952.	Woodcock, D. L.
171	15,177	The application of camber and twist to swept wings in incompressible flow. March, 1952.	Brebner, G. J.
172	16,053	The technique of flutter calculations. April, 1953.	Templeton, H.
173	16,122	A method of computing subsonic and transonic plane flows. September, 1953.	Sinnott, C. S.
174	13,424	A note on the boundary layer and stalling characteristics of aerofoils. October, 1950.	Carrow, D. D.
175	16,354	The performance of a multi-engine helicopter following failure of one engine during take-off or landing. October, 1953.	Oliver, A. L.

C.P. No.	Council No.	Title	Author(s)
176	15,434	A note on the development of sensitive pressure-operated water contacts for use on seaplanes. July, 1952.	Parker, R.
177	15,421	The M.A.E.E. recording accelerometer. September, 1952.	Ridland, D. M. Parker, R.
178	16,102	The effect of inlet conditions on the flow in annular diffusers. January, 1953.	Johnston, I. H.
179	16,202	A survey of scale effects on the hydrodynamic testing of seaplane models. September, 1953.	Parker, R.
180	16,526	The interaction between shock waves and boundary layers. (With a note on 'The effects of the interaction on the performance of supersonic intakes' by J. Seddon.)	Holder, D. W. Gadd, G. E. Pearcey, H. H.
181	13,317	The theoretical interference velocity on the axis of a two-dimensional wind tunnel with slotted walls. August, 1950.	Tomlinson, R.C.
182	13,359	Full-scale measurements of impact loads on a large flying boat. Part I. Description of apparatus and instrument installation. March, 1950.	McIvor, J. W.
183	16,578	An analysis of N.A.C.A. helicopter reports. January, 1954.	Liptrot, R. N.
184	16,512	Approximate wall corrections for an oscillating swept wing in a wind tunnel of closed circular section. January, 1954.	Acum, W. E. A. Garner, H. C.
185	16,090	The effect of compressibility on elevator flutter. March, 1953.	Williams, D. E.
186	15,980	Load diffusion in plastic structures. December, 1952.	Tucker, L. M. Twiss, R. B.
187	16,887	Compressor cascade flutter tests. 20-deg camber blades, medium and high stagger cascades. December, 1953.	Kilpatrick, D.A. Ritchie, J.
188	16,898	Note on the flow near the tail of a two-dimensional aerofoil moving at a free-stream Mach number close to unity. June, 1954.	Holder, D. W.
189	16,902	Shadowgraphs of model projectiles fired at high Mach numbers and near $M = 1$ in the N.P.L. ballistic range. July, 1954.	Cope, W. F.

C.P. No.	Council No.	Title	Author(s)
190	16,793	Report of the Definitions Panel on the definitions of the thrust of a jet engine and of the internal drag of a ducted body. May, 1954.	-
191	16,287	Measurement of lift, pitching moment, and hinge moment on a two-dimensional RAE 102 aerofoil. November, 1953.	Batson, A. S.
192	16,806	Some visual observations of the flow over a swept-back wing in a water tunnel, with particular reference to high incidences. May, 1954.	Lambourne, N. C. Pusey, P. S.
193	17,470	The use of quartz in the manufacture of small diameter pitot tubes. December, 1954.	Cooke, J. R.
194	16,728	A note on the sound from weak disturbances of a normal shock wave. April, 1954.	Powell, Alan
195	16,524	A criterion for the prediction of the recovery characteristics of spinning aircraft. August, 1953.	Kerr, T. H.
196	16,824	Tests on a swept-back wing and body with endplates and wing-tip tanks in the compressed air tunnel. With an Appendix 'Comparison between the measured lift and drag and calculated values for the wing with tip tanks. June, 1954.	Salter, C. Jones, R. Weber, J.
197	17,287	Requirements for uniformity of flow in supersonic wind tunnels. September, 1954.	Morris, D. E. Winter, K. G.
198	16,272	Wide-range amplifier for turbulence measurements with adjustable upper frequency limit. August, 1953.	Shuh, H. Walker, D.
199	16,686 17,035	Some notes on the calculation of pressure pick-up sensitivity and the conditions for maximum sensitivity, and the development of a miniature pressure pick-up. March, 1954.	Friswell, J. K.
200	-	Last of Current Papers published by the Aeronautical Research Council. (Nos. 151-200.) July, 1955.	-
