Published Reports and Memoranda of the Aeronautical Research Council

Reports and Memoranda No. 3250
August, 1962

This paper lists one hundred titles which have been published in the R. & M. Series of the Aeronautical Research Council.

The Council number is included for the purpose of record only.

The R. & M. Series is published and placed on sale by H.M. Stationery Office.

R. & M. No.	Council No.	Title	Author
3151	15,023	The effect of diameter ratio on the performance of a low-stagger axial-compressor stage. April, 1952.	Jefferies, R. A. Adams, R. G.
3152	20,383	Entrainment in the turbulent boundary layer. September, 1958.	Head, M. R.
3153	20,800	An improved strain-gauge type of load-cell thrust transducer. August, 1958.	Dean, D. S.
3154	19,338	Free vibrations of a stiffened cylindrical shell. May, 1957.	Miller, P. R.
3155	20,036	The effects of distributed suction on the development of turbulent boundary layers. March, 1958.	Dutton, R. A.
3156	20,459 20,460 20,461	Review and extension of transonic aerofoil theory. Part I. Introduction and qualitative analysis. Part II. Analysis of measured pressure distributions. Part III. Analysis of theoretical solutions. October, 1958.	Sinnott, C. S. Osborne, J.
3157	18,622	A method for calculating the lifting forces on wings (Unsteady subsonic and supersonic lifting-surface theory). April, 1955.	Richardson, J. R.
3158	20,618	Thermodynamic charts for the decomposition products of 80, 85 and 90 per cent w/w hydrogen peroxide (H.T.P.). April, 1958.	Carter, Enid.
3159	20,208	Explanation of poorly damped lateral oscillations during automatic approach with aileron steering. April, 1958.	Doetsch, K. H.
3160	20,451	Some measurements on a yawed slender delta wing with leading-edge separation. October, 1958.	Harvey, J. K.

R. & M. No.	Council No.	Title	Author
3161	20,264	Correlation in the random pressure field close to a jet. June, 1958.	Franklin, R. E. Foxwell, J. H.
3162	20,182	Pressure fluctuations near a cold, small-scale air jet (Measurement of space correlations). May, 1958.	Franklin, R. E. Foxwell, J. H.
3163	19,292	Measurements of the direct hinge-moment derivatives at subsonic and transonic speeds for a cropped delta wing with oscillating flap. May, 1957.	Bratt, J. B. Miles, C. J. W. Johnson, R. F.
3164	20,623	Accurate solutions of the laminar-boundary-layer equations, for flows having a stagnation point and separation. December, 1958.	Curle, N.
3165	16,052	Balance and pressure measurements at high subsonic speeds on a model of a swept-wing aircraft (Hawker P.1052) and some comparisons with flight data. February, 1953.	Collingbourne, J. R. Pindar, A. C. S.
3166	18,777	A note on test factors. September, 1956.	Bullen, N. I.
3167	20,210	Flexible mass-balance arms and control-surface flutter. January, 1958.	Moxon, D.
3168	20,437	The effect of various parameters on wing-torsion aileron-rotation flutter. May, 1958.	Smith, A. D. N.
3169	18,943	The effect of structural damping on binary flutter. August, 1956.	Broadbent, E. G. Williams, Margaret.
3170	19,614	The measurement of unsteady forces and moments on slender bodies oscillating in a wind tunnel. October, 1957.	Clarke, J. F.
3171	20,301	Aerodynamic derivative measurements on a rectangular wing of aspect ratio 3.3. March, 1958.	Guyett, P. R. Curran, J. K.
3172	20,604	The hydro-elastic stability of hydrofoil struts. November, 1958.	Hilborne, D. V.
3173	20,870	Wave theory of the Mach-Zehnder interferometer. March, 1959.	Zienkiewicz, H. K.
3174	18,528	Charts for low-speed characteristics of two-dimensional trailing-edge flaps. August, 1957.	Garner, H. C.
3175	20,502	The steady flow of a viscous fluid past a circular cylinder at Reynolds numbers 40 and 44. October, 1958.	Apelt, C. J.

R. & M. No.	Council No.	Title	Author
3176	19,780	An investigation at low speed of the flow near the apex of thin delta wings with sharp leading edges. January, 1958.	Elle, B. J.
3177	19,897	The torsional oscillations of airscrew blades at low mean incidences. February, 1958.	Jones, J. P.
3178	20,180	The stability of rotor blade flapping motion. May, 1958.	Shutler, A. G. Jones, J. P.
3179	20,482	Heat transfer and laminar-boundary-layer separation in steady compressible flow past a wall with non-uniform temperature. December, 1958.	Curle, N.
3180	20,654	Observations of the flow over a two-dimensional 4 per cent thick aerofoil at transonic speeds. January, 1959.	Henshall, B. D. Cash, R. F.
3181	19,052 19,901	Blade vibratory stresses in a multi-stage axial-flow compressor. January, 1958.	Kilpatrick, D. A. Carter, A. D. S. O'Neill, L.
3182	19,732	Vortex-lattice treatment of rectangular wings with oscillating control surfaces. December, 1957.	Lehrian, Doris E.
3183	19,994	The design and testing of an axial-flow compressor having different blade profiles in each stage. November, 1957.	Carter, A. D. S. Turner, R. C. Sparkes, D. W. Burrows, R. A.
3184	19,504	The effect of Reynolds number on the performance of a single-stage compressor. May, 1957.	Carter, A. D. S. Moss, C. E. Green, G. R. Annear, G. G.
3185	17,024 17,025 20,199	On the measurement of local surface friction on a flat plate by means of Preston tubes. May, 1958.	Staff of Aerodynamics Division, N.P.L.
3186	20,727	Low-speed wind-tunnel tests on a series of uncambered slender pointed wings with sharp edges. December, 1958.	Peckham, D. H.
3187	21,208	Calculation of flexible wall shapes and preparation of control tapes for the Bedford 8-ft \times 8-ft Wind Tunnel. February, 1959.	Barritt, Marjorie M. (with Appendix by K. V. Diprose).
3188	16,711	Aileron control of small-aspect-ratio aircraft; in particular, delta aircraft. October, 1953.	Pinsker, W. J. G.
3189	20,017	Body freedom flutter of ground-launched rocket models at supersonic and high subsonic speeds. September, 1957.	Gaukroger, D. R.

R. & M. No.	Council No.	Title	Author
3190	18,072	Some observations of the flow over a delta-winged model with 55-deg leading-edge sweep, at Mach numbers between 0.4 and 1.8. November, 1955.	Sutton, E. P.
3191	21,144	The growth of compressible turbulent boundary layers on isothermal and adiabatic walls. June, 1959.	Spence, D. A.
3192	17,067	Some notes on the flow patterns observed over various swept-back wings at low Mach numbers (in the R.A.E. 10-ft × 7-ft High Speed Tunnel). September, 1954.	Haines, A. B.
3193	20,920	A free-flight investigation into the effect of body shaping on the zero-lift drag of a wing-body combination at transonic and supersonic speeds. September, 1958.	Hamilton, J. A. Greenwood, G. H. Lord, W. T.
3194	20,290	An analysis of the flow over two 45-deg swept-back wings at high subsonic speeds, and comparison with theory. July, 1958.	Cook, R.
3195	20,373	Combined flexure and torsion of a class of heated thin wings: a large-deflection analysis. March, 1958.	Mansfield, E. H.
3196	21,016	Use of camber and twist to produce low-drag delta or swept-back wings, without leading-edge singularities, at supersonic speeds. December, 1958.	Roper, G. M.
3197	21,333	Leading-edge buckling due to aerodynamic heating. May, 1959.	Mansfield, E. H.
3198	21,286	The buckling of a pressurised stiffened cylinder under axial load. April, 1959.	McKenzie, K. I.
3199	21,059	A calculation method for three-dimensional turbulent boundary layers. October, 1958.	Cooke, J. C.
3200	21,386	An axially symmetric analogue for general three-dimensional boundary layers. June, 1959.	Cooke, J. C.
3201	21,404	Approximate calculation of three-dimensional laminar boundary layers. October, 1959.	Cooke, J. C.
3202	20,895	The determination of local turbulent skin friction from observations in the viscous sub-layer. March, 1959.	Bradshaw, P. Gregory, N.
3203	20,456 20,799	An experimental method for the study of the impact between a liquid drop and a surface moving at high speed. July, 1958.	Jenkins, D. C. Booker, J. D. Sweed, J. W.

R. & M. No.	Council No.	Title	Author
3204	19,126	The effect of internal contraction, initial rate of subsonic diffusion, and cowl and centrebody shape on the pressure recovery of a conical-centrebody intake at supersonic speeds. November, 1956.	Goldsmith, E. L.
3205	21,268	The normal impingement of a circular air jet on a flat surface. September, 1959.	Bradshaw, P. Love, Edna M.
3206	19,134	Direct solution of the flutter problem. December, 1956.	Lancaster, P.
3207	21,399	The calculation of the compressible turbulent boundary layer in an arbitrary pressure gradient—A correlation of certain previous methods. September, 1959.	Stratford, B. S. Beavers, G. S.
3208	18,508	Subsonic wind-tunnel tests on a crescent-winged aircraft, including tests of leading-edge droop designs and several tailplane heights. October, 1955.	Hall, C. N. Prior, B. J.
3209	18,401	An experimental investigation of the transonic flow over an unswept wing of aspect ratio 3·5, taper ratio 0·5, with a 4 per cent biconvex section. November, 1955.	Scott-Wilson, J. B.
3210	16,809	Elevator flutter involving two tabs. January, 1954.	Broadbent, E. G. Clarke, Mary.
3211	21,390	An experimental investigation at supersonic speeds of the characteristics of two gothic wings, one plane and one cambered. May, 1959.	Squire, L. C.
3212	20,758	A supersonic tunnel design for testing engine intakes. October, 1958.	Staniforth, R.
3213	—	Abstracts of papers published externally. July, 1956.	—
3214	20,649	Theoretical subsonic derivatives for an oscillating M-wing. January, 1959.	Garner, H. C. Acum, W. E. A.
3215	21,822	The effect of humidity on laminar recovery temperature measurements in supersonic flow of air in wind tunnels. April, 1959.	Crane, J. F. W.
3216	21,874	The relationship between the discrete gust and power spectra presentations of atmospheric turbulence, with a suggested model of low-altitude turbulence. March, 1960.	Zbrozek, J. K.
3217	21,430	Formulae for calculating the camber surfaces of thin swept-back wings of arbitrary plan-form with subsonic leading edges, and specified load distribution. June, 1959.	Roper, G. M.

R. & M. No.	Council No.	Title	Author
3218	21,974	Effects of heat transfer on laminar boundary-layer development under pressure gradients in compressible flow. May, 1960.	Monaghan, R. J.
3219	21,598	Interference on a three-dimensional jet-flap wing in a closed wind tunnel. August, 1959.	Maskell, E. C.
3220	20,179	Tests on an experimental three-stage turbine fitted with low reaction blading of unconventional form. January, 1958.	Johnston, I. H. Sansome, G. E.
3221	21,890	Numerical methods for calculating the zero-lift wave drag and the lift-dependent wave drag of slender wings. December, 1959.	Weber, J.
3222	21,909	Some notes on the zero-lift wave drag of slender wings with unswept trailing edge. December, 1959.	Weber, J.
3223	21,943 21,918	The longitudinal stability and control of the tandem-rotor helicopter (Part I). The lateral stability and control of the tandem-rotor helicopter (Part II). January, 1960.	Bramwell, A. R. S.
3224	21,796	The effect of a central jet on the base pressure of a cylindrical after-body in a supersonic stream. December, 1959.	Reid, J. Hastings, R. C.
3225	20,335	Measurement of the performance of a single stage, high Mach number, subsonic axial-flow compressor. May, 1958.	Staniforth, R.
3226	19,218 20,888	A wind tunnel investigation of the longitudinal and lateral aerodynamic characteristics of a canard aircraft model. Part I. Tests at $M = 1.40$ and $M = 2.02$. Part II. Tests at $M = 2.47$. February, 1959.	Watts, P. E. Beecham, L. J. Watts, P. E. Treadgold, D. A.
3227	21,706	A theoretical study of annular supersonic nozzles. October, 1959.	Lord, W. T.
3228	21,908	Performance of the 36 × 35 in. slotted transonic working section of the R.A.E. Bedford 3-ft Wind Tunnel. January, 1960.	Sutton, E. P. Caiger, M. T. Stanbrook, A.
3229	21,185	The velocity potential on triangular and related wings with subsonic leading edges oscillating harmonically in supersonic flow. February, 1959.	Davies, D. E.

R. & M. No.	Council No.	Title	Author
3230	20,332	10-ft \times 7-ft tunnel tests up to $M = 0.94$ of nose droop and a blunt-nosed NACA 3-00 type section on a $7\frac{1}{2}$ per cent thick 50 deg swept wing. March, 1958.	Courtney, A. L.
3231	17,752	Flutter tests on some delta wings using ground-launched rockets. February, 1955.	Molyneux, W. G. Ruddlesden, F.
3232	21,595	A record of information on oscillatory aerodynamic derivative measurements. July, 1959.	Hall, H.
3233	20,336 21,563	Generalized methods for the calculation of the laminar compressible boundary-layer characteristics with heat transfer and non-uniform pressure distribution. January, 1960.	Luxton, R. E. Young, A. D.
3234	20,650	Measurement of pitching-moment derivatives for aerofoils oscillating in two-dimensional supersonic flow. January, 1959.	Scruton, C. Woodgate, L. Lapworth, K. C. Maybrey, J.
3235	21,535	On axi-symmetrical gas jets with application to rocket jet flow fields at high altitudes. July, 1959.	Lord, W. T.
3236	22,143	Thermal stresses near the roots of rectangular wings. May, 1960.	Pope, G. G.
3237	22,184	The hemispherical, differential pressure yawmeter at supersonic speeds. June, 1960.	Beecham, L. J.
3238	22,060	The pressure distribution on two-dimensional wings near the ground. February, 1960.	Bagley, J. A.
3239	22,069	Some convergence problems in the numerical solution of the Navier-Stokes equations. July, 1960.	Lester, W. G. S.
3240	22,070	The flow past a pitot tube at low Reynolds numbers. Part I. The numerical solution of the Navier-Stokes equations for steady viscous axi-symmetric flow. Part II. The effects of viscosity and orifice size on a pitot tube at low Reynolds numbers. July, 1960.	Lester, W. G. S.
3241	22,154	An approximate integral method for calculating the incompressible laminar boundary layer on an infinite swept wing on which velocity and suction distribution are arbitrary. February, 1959.	Pinsent, H. G. Pinsent, P. A.
3242	21,245	The test performance of highly loaded turbine stages designed for high pressure ratio. June, 1959.	Johnston, I. H. Dransfield, D. C.

R. & M. No.	Council No.	Title	Author
3243	21,990	Flight tests to investigate the dynamic lateral stability characteristics of a 45 deg delta, cropped to give three aspect ratios. February, 1960.	Nethaway, J. E. Clark, J.
3244	20,982 21,562	Pressure distribution and surface flow on 5 per cent and 9 per cent thick wings with curved tip and 60 deg sweep-back. January, 1960.	Garner, H. C. Walshe, D. E.
3245	22,246	Thermal buckling of circular plates. September, 1960.	Cotterell, B. Parkes, E. W.
3246	21,991	An experimental investigation of heat transfer from the inside surface of a hot smooth tube to air, helium and carbon dioxide. March, 1960.	Barnes, J. F.
3247	21,056 21,158	Part I. A description of the excitation and recording equipment used for flight flutter tests on a <i>Meteor</i> 8. Part II. Comparative flight flutter tests using the 'decaying oscillation' and 'amplitude response' techniques. April, 1959.	Luscombe, P. D. R. Kirkby, W. T. Luscombe, P. D. R.
3248	22,270	Behaviour of skin fatigue cracks at the corners of windows in a <i>Comet</i> I fuselage. June, 1960.	Atkinson, R. J. Winkworth, W. J. Norris, G. M.
3249	22,327	Properties of a two-parameter family of thin conically cambered delta wings by slender-body theory. July, 1960.	Cooke, J. C.
3250	—	Published Reports and Memoranda of the Aeronautical Research Council. (Nos. 3151-3250).	—
