published for  
THE AERONAUTICAL RESEARCH COUNCIL  
(Numbers 551-600)

C.P. No.	Council No.	Title	Author(s)
551	22,082	A wind tunnel investigation into the pressure distribution on a wing surface in a non-uniform supersonic flow. (February, 1960).	Firmin, M. C. P. Bartlett, W. J.
552	21,217 and 21,828	On the representation of fan-wing characteristics in a form suitable for the analysis of transition motions, with results of tests of an aspect-ratio-1 wing with fan at 0.354 chord. (August, 1959).	Gregory, N.
553	22,711	Free-flight measurements of the zero-lift drag and base pressure on a wind tunnel interference model ( $M = 0.8$ to $1.5$ ). (November, 1960).	Greenwood, G. H.
554	22,308	Boundary layer measurements at low speed on two wings of $45^\circ$ and $55^\circ$ sweep. (August, 1960).	Erbner G. G. Wyatt, L. A.
555	22,288	An experimental study of the glancing interaction between a shock wave and a turbulent boundary layer. (July, 1960).	Stanbrook, A.
556	21,834	Some calculations by the Crocco-Lees and other methods of interaction between shock waves and laminar boundary layers, including effects of heat transfer and suction. (April, 1960).	Bray, K. N. C. Gadd, G. E. Woodger M.
557	21,912	Design and operation of the N.C.T.E. thermal shock analogue. (January, 1960).	Stanworth C. G. Paine, D. S. C.
558	22,511	A note on the use of steady expansions in shock tubes and shock tunnels. (January, 1961).	Schultz, D. L.

C.P. No.	Council No.	Title	Author(s)
559	22,326	A preliminary study of ionic recombination of argon in wind tunnel nozzles. (February, 1960).	Bray K. N. C. Wilson, J. A.
560	22,106	Pressure and boundary layer measurements on a tapered swept wing in flight. (March, 1960).	Hyde, D.
561	21,242	Tests of a blow-away jet debris guard applied to a supersonic turbojet intake. (June, 1959).	Golesworthy, G. T.
562	22,200	Calculations of the lift slope and aerodynamic centre of cropped delta wings at supersonic speeds. (July, 1960).	Smith, J. H. B. Beasley, J. A. Stevens, A.
563	21,754	On the transient motion of a slender delta wing with leading edge separation. (March, 1960).	Hancock, G. J.
564	22,470	Crack propagation properties of thin sheet - some recent results and their impact on design. (September, 1960).	Williams, D.
565	22,899	An experimental study of the drag of rigid models representing two parachute designs at $M = 1.40$ and $2.19$ . (December, 1960).	Roberts, B. G.
566	22,539	Exploratory tests on sting interference at a Mach number of $6.8$ . (October, 1960).	Peckham, D. H.
567	22,512	Note on the time required for the achievement of steady flow past a slender body in a hypersonic shock tunnel. (January, 1961).	Holder, D. W. Schultz, D. L.
568	22,966	Low speed wind tunnel tests on a two-dimensional aerofoil with split flap near the ground. (March, 1961).	Bagley, J. A.
569	22,558	A note on the effects of heat transfer on the separation of a laminar boundary layer. (February, 1961).	Gadd, G. E. Attridge, J. L.

C.P. No.	Council No.	Title	Author(s)
570	22,622	The analysis of complex vibrations with Spada. (June, 1960).	Entres, S. L.
571	22,506	Low-speed wind tunnel tests on the effects of taper on low aspect-ratio wings at zero incidence. (August, 1960).	Peckham, D. H.
572	22,967	Free-flight measurements of control effectiveness on three wing planforms at transonic speeds. (March, 1961).	Edwards, J. B. W.
573	21,734	A method of detecting the fully cooled state of a liquid oxygen pipeline. (September, 1960).	Shufflebotham, N.
574	22,667	Turbulence encountered by Ambassador aircraft over Europe. (December, 1960).	Heath-Smith, J. R.
575	22,968	The design and testing of a low range acceleration transducer with predictable response characteristics. (March, 1961).	McLaren, I.
576	22,370	Low-speed wind-tunnel tests on sharp-edged gothic wings of aspect-ratio $3/4$ . (May, 1960).	Keating, R. F. A.
577	22,504	Low-speed pressure-plotting tests on a flat-plate M-wing fitted with part-span nose-flaps. (June, 1960).	Wyatt, L. A. Elliott, G. P. Miss
578	22,556	An investigation into the effects of ground proximity on twin coaxial annular jets, using hot and cold air. (June, 1960).	Barrett, R. V. Tipping, J. C.
579	22,963	Scale models for thermo-aeroelastic research. (March, 1961).	Holyneux, W. G.
580	22,747	An amplitude probability analyser for use in turbulence and noise measurements. (April, 1961).	Johnson, R. F.
581	23,215	Gusts at low altitude in North Africa. (September, 1961).	Bullen, N. I.

C.P. No.	Council No.	Title	Author(s)
582	23,177	Wind tunnel tests at Mach numbers between 0.6 and 1.4 of a 60° swept wing having an aerofoil section designed for subcritical flow at a Mach number of 1.2. Part I - 9% thick section with "triangular" pressure distribution. (May, 1961).	Lawlor, E. F.
583	22,814	Surface oil-flow patterns on wings of different leading-edge radius and sweepback. (March, 1961).	Garner, H. C. Cox, D. K. Miss
584	21,517	A survey of buffeting loads. (August, 1959).	Seal, Diana M.
585	21,798	An experimental investigation of the characteristics of an Ogee wing from M = 0.4 to M = 1.8. (August, 1959).	Squire, I. C. Capps, D. S.
586	23,126	The estimation of transient temperature distributions and thermal stresses in turbine and compressor discs. (May, 1961).	Cox, M.
587	23,159	Problems associated with the use of a false wall as a reflection plane for half-model tests in the De Havilland high speed wind tunnel. (August, 1961).	Holder, D. R. Farley, F. C.
588	23,203	Subjective response to sonic bangs. (October, 1961).	Clarke, M. J. Wilby, J. F.
589	22,915	Observations of stall cells in a single stage compressor. (March, 1961).	Dunham, J.
590	22,486 23,435 23,436	The 7 in. × 7 in. hypersonic wind tunnel at R.A.E., Farnborough. Part I - Design, instrumentation and flow visualization techniques. Part II - Heater performance. Part III - Calibration of the flow in the working section. (August, 1961).	Crane, J. F. W. Crabtree, L. F.
591	22,752	Comparative calculations of supersonic pitching derivatives over a range of frequency parameter. (April, 1961).	Garner, H. C. Acum, W. E. A. Lehrian, Doris E.

C.P. No.	Council No.	Title	Author(s)
592	19,654	A review of the problems of aircraft wheel braking on wet surfaces and a description of a method of artificially wetting runways for test purposes. (November, 1957).	Koyes, H. J.
593	21,345	Reduction of lift-dependent drag with separated flow. (October, 1959).	Lee, G. H.
594	22,682	Measurements of the pitching moment derivatives for rigid wings of rectangular plan form oscillating about the mid-chord axis in supersonic flow. (March, 1961).	Scruton, C. Woodgate, L. Lapworth, K. C. Maybrey, J. F. M.
595	19,865	On the control of shock-induced boundary-layer separation with discrete air jets. (February, 1958).	Wallis, R. A.
596	22,250	The damping of structural vibrations. (September, 1960).	Parfitt, G. G. Lambeth, D.
597	23,059	Exploratory wind-tunnel investigations on a bluff body containing a lifting fan. (April, 1961).	Trebble, W. J. G. Williams, J.
598	21,695	The effect of tip bluntness on boundary-layer transition on a 15° included angle cone at M = 3.12 and 3.81. (August, 1959).	Rogers, Ruth H.
599	22,820	The development of the boundary layer in supersonic shear flow. (January, 1961).	Rogers, Ruth H.
